EDUCATION

PET Engineering College Tirunelveli, Tamil Nadu

B.E., Mechanical Engineering **2016 - 2020**

SKILLS SUMMARY

- **Languages:** JavaScript (ES6+), TypeScript, C#, HTML5, CSS3
- **Frameworks:** React.js, Next.js (Pages Router & App Router), Node.js, Express.js, ASP.NET Web API, Tailwind CSS
- **Databases:** PostgreSQL, MySQL, Supabase
- **Tools:** Git, GitHub, Postman, Vercel, BrowserStack, New Relic, Amplitude, Google Analytics (GA4)
- **Practices:** REST API Design, JWT Authentication, Responsive Web Design, Localization (Multi-language Sites), Cross-Browser Testing, Performance Optimization, SEO & Core Web Vitals, Structured Data (JSON-LD)
- **Soft Skills:** Problem Solving, Teamwork, Communication, Adaptability, Time Management
- **Spoken Languages:** Tamil, English

WORK EXPERIENCE

FULL-STACK DEVELOPER | BM E-SOLUTIONS, ERODE (CLIENT: ROCABA GROUP) Sep 2023 - Present

- Built and maintained one **multi-tenant Next.js codebase running 9 localised e-commerce sites**, delivering **10+ e-commerce features** (product pages, search, cart, checkout) using **React.js, Next.js, and Node.js**.
- Built the **"Quote to Order" workflow** covering product selection, artwork upload, delivery, and payment (card, PayPal, Bacs).
- Redesigned the header, footer, menus, and product pages, and built a new **"Printed Bags Online" ordering experience** with dynamic pricing and Fast Track options.
- Improved **Core Web Vitals** by fixing layout shift (CLS) and page-load speed (LCP), lazy-loading third-party scripts, splitting bundles, using the Next.js Image component and dynamic imports, and adding an **LRU cache**, reducing **page load time by 35%** and speeding up mobile pages.
- Improved **SEO** with JSON-LD schema, canonical and meta tags, proper 404 pages, robots.txt, and llms.txt, improving search engine visibility.
- Designed and optimized RESTful APIs for product, cart, and order workflows using **Express.js**; introduced query indexing and response caching, cutting **average API response time by 25%** and reducing database load.
- Engineered responsive layouts with cross-browser testing (Chrome DevTools, BrowserStack), raising **Lighthouse mobile score by 12 points** and improving **customer satisfaction by 20%**.
- Set up analytics and tracking with **Amplitude** (events and session replay), **GA4**, Bing, Pinterest, TikTok, and OpenAI Ads.
- Integrated Feefo and Trustpilot reviews, the Polotno design editor, WhatsApp/Freshchat, and consent-aware reCAPTCHA.
- Kept the platform secure and up to date through dependency upgrades, vulnerability fixes, bot/invalid-URL blocking, and Node.js upgrades; added error logging and monitoring with **New Relic**.
- Diagnosed and resolved **20+ production bugs** across the **React frontend and Node.js API** using Postman and server logs, reducing post-deployment customer-reported issues.

PROJECTS

CarrierBag | React.js, Next.js, Node.js, Express.js, CSS | LINK

- Built and currently maintain a live, in-production **e-commerce platform** with a **React.js/Next.js** client and **Node.js/Express.js** server, owning the project front-to-back.
- Developed RESTful API endpoints for data operations, consumed by the frontend with proper loading and error-state handling.

Cricket Live Score App | Next.js (App Router), Tailwind CSS, Supabase

- Built a cricket live score tracking app end-to-end using **Next.js (App Router) and Tailwind CSS**, leveraging **Claude AI** to accelerate development.
- Implemented **cricket-specific scoring logic, including no-ball rules**, to accurately track live match scores and events.
- Designed a responsive UI with Tailwind CSS for a clean, real-time score-viewing experience across devices.
- Integrated a **Supabase** database to store and retrieve match, team, and score data.

CERTIFICATES

FRONT-END DEVELOPMENT COURSE COMPLETION | FRENZO, COIMBATORE
